PROJECTS

Shopify - E-Commerce Platform

Developed a fully functional e-commerce website that allows businesses to create and manage online stores, offering seamless product listing, order management, and secure payment processing.
Built using the MERN stack (MongoDB, Express.js, React, Node.js) with Tailwind CSS for a responsive and modern UI, ensuring a smooth shopping experience.
Implemented key features like product categories, search filters, shopping cart, checkout, and admin dashboard for store management, enhancing usability and business efficiency.

College-Connect An exclusive social media platform

Created a content-sharing platform that enables users to upload, watch, and engage with videos, mimicking the core functionality of YouTube.
Developed using the MERN stack with Tailwind CSS for a clean and responsive UI, providing an optimized user experience across devices.
Implemented features such as video upload, playback, likes, comments, subscriptions, and user authentication, ensuring an interactive and engaging platform.

EXPERIENCES & ACHIEVEMENTS

Had done an Internship in Web Development at Chroma Technolabs, Ahmedabad.

May'25 –July'25

PARTICIPATIONS

- OdooXCharusat Hackathon
